

Community Health Action Plan 2016 (year)

Designed to address Community Health Assessment priorities (Form updated Jan. 2016)

*Three priorities identified during the 2015 CHA process are required to be addressed. Each priority should have a separate "Community Health Action Plan". Action plans are due by **the first Monday in September following the March submission of the CHA, per consolidated agreement.***

County: Hoke

Period Covered: July 1, 2016-June 30, 2019

Partnership/Health Steering Committee, if applicable: Hoke County Public Health Advisory Council/Hoke County Health Department

Community Health Priority identified in the most recent CHA: Chronic Disease

Local Community Objective: *(Working description/name of community objective)* Cardiovascular Disease, Diabetes, Physical Activity and Nutrition

By June 2019, reduce the rate of heart disease related deaths in Hoke County by 10%. A decrease in 10% will reduce our rate of heart disease related deaths to 32 per 100,000.

(check one): **New** **Ongoing** *(addressed in previous Action Plan)*

- **Baseline Data:** In 2005, heart disease related deaths in Hoke County were 301 per 100,000). NC State Center for Health Statistics 2005 Mortality Statistics Summary-Heart Disease.
- **For continuing objective provide the updated information:** *(State measure/numerical value. Include date and source of current information):* Age-adjusted mortality rates for heart disease and stroke related deaths according to latest available statistics for 2014-Heart Disease show 56 deaths (108.5. per 100,000 death rate); Cerebrovascular Disease-14 deaths (27.1 per 100,000 death rate). NC State Center for Health Statistics-Mortality Statistics Summary 2014-Heart Disease and Cerebrovascular Disease.
- **Healthy NC 2020 Objective** that most closely aligns with focus area chosen below:
 1. Reduce the cardiovascular disease mortality rate (per 100,000 population) to 161.5% by 2020.
 2. Decrease the percentage of adults with diabetes to 8.6 by 2020.
 3. Increase the percentage of adults getting the recommended amount of physical activity to 60.6% by 2020.
 4. Increase the percentage of adults who report they consume fruits and vegetables five or more times per day to 29.3% by 2020.

Population(s)

I. Describe the local population at risk for health problems related to this local community objective:

Minorities-African American, Native American and Hispanic
Economically disadvantaged-residents whose gross income is less than \$15,000 per year
Adults-persons 35-64 years of age

II. Describe the target population specific to this action plan:

- A. Total number of persons in the target population specific to this action plan:** 10577
- B. Total number of persons in the target population to be reached by this action plan:** 1058
- C. Calculate the impact of this action plan:**

(Total # in B divided by total # in A) X 100% = 10% of the target population reached by the action plan.)

Healthy North Carolina 2020 Focus Area Addressed: Each of the two CHA priorities selected for submission must have a corresponding *Healthy NC 2020* focus area that aligns with your local community objectives.

■ Check below the applicable Healthy NC 2020 focus area(s) for this action plan.

Evidence Based Strategy/Intervention (EBS) Table: Researching effective strategies/interventions

List 3-5 evidence-based interventions (proven to effectively address this priority issue) that seem the most suitable for your community and/or target group.
(Insert rows as needed)

Evidence Based Strategies Used with Like Population(s) (Include source)	Strategy/Intervention Goal(s)	Implementation Venue(s)	Resources Utilized/Needed for Implementation
Name of Intervention: Eat Smart Move More Weigh Less Program Online Community Strengths/Assets: Network to provide educational information on an individual basis to each requesting organization.	S.M.A.R.T Goals: To enhance health programs that address emerging issues affecting Hoke County Citizens.	Target Population(s): Adult minorities 35-64 years of age Venue: Faith Community/Hospitals/ County Agencies	Resources Needed: Participants will need access to computer to do program
Name of Intervention: Stanford Chronic Disease Self-Management Program Community Strengths/Assets: Network to provide educational information on an individual basis to each requesting organization.	S.M.A.R.T Goals: To enhance health programs that address emerging issues affecting Hoke County Citizens.	Target Population(s): Adult minorities 35-64 years of age Venue: Faith Community/Hospitals /County Agencies	Resources Needed: Curriculum and educational pamphlets and books related to subject.
Name of Intervention: ADA Diabetes Self-Management Program Community Strengths/Assets: Network to provide educational information on an individual basis to each requesting organization	S.M.A.R.T Goals: To enhance health programs that address emerging issues affecting Hoke County Citizens.	Target Population(s): Adult minorities 35-64 years of age Venue: Hoke County Health Department	Resources Needed: Curriculum and educational pamphlets and books related to subject.
Name of Intervention: National Diabetes Prevention Program Community Strengths/Assets: Network to provide educational information on an individual basis to each requesting organization	S.M.A.R.T Goals: To enhance health programs that address emerging issues affecting Hoke County Citizens.	Target Population(s): Adult minorities 35-64 years of age Venue: Hoke County Health Department	Resources Needed: Curriculum and educational pamphlets and books related to subject.
Name of Intervention: Faithful Families Eating Smart and Moving More Community Strengths/Assets: Network to provide educational information on an individual basis to each requesting organization	S.M.A.R.T Goals: To enhance health programs that address emerging issues affecting Hoke County Citizens.	Target Population(s): Adult minorities 35-64 years of age Venue: Faith Community/Hospitals/ County Agencies	Resources Needed: Curriculum and educational pamphlets and books related to subject.
Name of Intervention: UNC Greensboro Health Coaching Program Community Strengths/Assets: Network to provide educational information on an individual basis to each requesting organization.	S.M.A.R.T Goals: To enhance health programs that address emerging issues affecting Hoke County Citizens.	Target Population(s): Adult minorities 35-64 years of age Venue: Hoke County Health Department	Resources Needed: Curriculum and educational pamphlets and books related to subject.

Interventions Specifically Addressing Chosen Health Priority

Clients indicate if their desires have changed or if there is to be a shift in goal setting.</u></p> <p>Evaluation: Are you using an existing evaluation? <input checked="" type="checkbox"/> Y <input type="checkbox"/> N If no, please provide plan for evaluating intervention:</p>
---	--	---	--

<p>Intervention: <u>AADE and CDC National Diabetes Prevention Program</u></p> <p><input checked="" type="checkbox"/> New <input type="checkbox"/> Ongoing <input type="checkbox"/> Completed</p> <p>Setting: <u>Health Department</u></p> <p>Target population: <u>Adult minorities 35-64 years of age</u></p> <p>Start Date – End Date (mm/yy): <u>07/2016- 06/2019</u></p> <p>Targets health disparities: <input checked="" type="checkbox"/> Y <input type="checkbox"/> N</p>	<p><input checked="" type="checkbox"/> Individual/ Interpersonal Behavior</p> <p><input type="checkbox"/> Organizational/Policy</p> <p><input type="checkbox"/> Environmental Change</p>	<p>Lead Agency: <u>Hoke County Health Department</u></p> <p>Role: <u>Collaboration with local medical providers</u></p> <p><input type="checkbox"/> New partner <input checked="" type="checkbox"/> Established partner</p> <p>Target population representative: <u>RD and Health Educators</u></p> <p>Role:</p> <ol style="list-style-type: none"> <u>1. Receive and maintain patient referrals from local providers.</u> <u>2. Enroll referred patients into the program and schedule group sessions.</u> <u>3. Hold group sessions weekly for 16 weeks then monthly group follow-ups for the remainder of the year per National Diabetes Prevention Program guidelines.</u> <u>4. Track and report participant anthropometrics to the CDC and AADE per program guidelines.</u> 	<p>Expected outcomes: <u>Participants will make lifestyle changes that result in weight reduction and the prevention of Diabetes.</u></p> <p>Anticipated barriers: Any potential barriers? <input checked="" type="checkbox"/> Y <input type="checkbox"/> N If yes, explain how intervention will be adapted: <u>Transportation is frequently a barrier for participants. We will offer to travel to offsite locations that may be more convenient for participants to include places where participants may already be gathering i.e. churches, physicians' offices, and other community venues as the need dictates.</u></p> <p>List anticipated project staff: <u>RD and Health Educators</u></p> <p>Does project staff need additional training? <input type="checkbox"/> Y <input checked="" type="checkbox"/> N If yes, list training plan:</p> <p>Quantify what you will do: <u>Participants will make life long changes to maintain weight loss of 7% of his/her body weight in order to prevent prediabetes from progressing into diabetes.</u></p> <p>List how agency will monitor intervention activities and feedback from participants/stakeholders: <u>Participants will have the opportunity to provide feedback to lifestyle coaches at the conclusion of each session. Feedback will be shared with all lifestyle coaches to improve the experience for participants. Food intake journals, activity logs, and weight records will be reviewed by lifestyle coaches between sessions to monitor effectiveness of interventions as program is implemented.</u></p> <p>Evaluation: Are you using an existing evaluation? <input checked="" type="checkbox"/> Y <input type="checkbox"/> N If no, please provide plan for evaluating intervention:</p>
---	--	---	---

New partner Established partner

Partners: Local Medical Providers

Role:

1. Refer appropriate patients into the program by faxing referral forms and pertinent medical information to the HCHD. Appropriate patients are defined on the referral forms that HCHD staff provide to the providers.
2. Encourage referred patients to participate and commit to attending all group sessions.

Include how you're marketing the intervention:

1. Advertisement on local radio station, newspaper and county website-Health Department page.
2. Routine visits to local medical providers' offices to discuss program with office manager to get referrals.
